

Periodic Table Worksheet

	Element notation	Element located in period #	Total # of energy levels	Element's group #	# valence electrons	Valence e- located in 2 energy level	Metal Metalloid Nonmetal	Solid Liquid Gas
100	Fluorine							
101	Antimony							
102	Rubidium							
103	Arsenic							
104	Xenon							
105	Aluminum							
106	Potassium
